SUMMARY OF SKILLS

- Programming Languages: JavaScript, HTML, CSS, SQL, Python, Java
- Libraries: React, Node.js
- Databases: Oracle, MySQL
- Proficient in Linux and Windows operating systems
- Excellent communication, problem-solving, time management and attention to detail
- CPR Certified – Heart and Stroke Foundation of Canada
- Level 1 Snowboarder Instructor - Canadian Association of Snowboard Instructors

EDUCATION

Computer Programming Diploma, Co-op Stream Jan 2024 - Sept 2025

Humber College, Etobicoke, ON

- academic achievement : Dean's Honour List
- Course Highlights: Advanced Front-End Programming, Operating Systems, Database Programming, Statistical Data Analysis

Honors Bachelor of Science, Health and Disease Sept 2011 - Apr 2015

University of Toronto, Toronto, ON

PROJECTS

Today I Learned, Full Stack Development Project

- Built a full-stack web application using HTML, CSS, JavaScript, React, and Supabase.
- Designed a responsive front-end layout and implemented a Supabase database for managing data.
- Integrated API functionality for data fetching and user interaction.
- Deployed the application to Netlify, making it publicly accessible.

WORK EXPERIENCE

Registered Dental Hygienist Oct 2022 - Present

Mackenzie Dental Centre, Woodbridge, ON

- Conduct thorough oral assessments and develop personalized treatment plans for 1000+ patients, ensuring accurate diagnosis and care.
- Educate and counsel patients on oral hygiene, increasing compliance and improving oral health outcomes for 90% of patients.
- Collaborate closely with dentists and the dental team to deliver high-quality patient care, maintaining precise records and treatment documentation.
